

*Presents the Excavator and Backhoe*

*Attachments,*

*"Stag Bucket"*  
Patent Pending <sup>TM</sup>

*Staggered Tooth  
Angled Edge  
for high penetration and  
concentrated breakout force*

*Provides digging advantage  
for tough material applications  
such as shot rock, coral, frost,  
stratified materials,  
caliche, shale  
and highly compacted materials.*

*Your excavator will have improved penetration,  
applying the maximum breakout force individually to each tooth,  
using our patent pending "Staggered Tooth" technology*
