"Lee has brought a whole new dimension to rock excavation. As a utility and excavation contractor I have purchased several large Multi-Ripper Buckets from Lee and Leading Edge Attachments. I have been amazed at the productivity that we have achieved with these buckets. They named the company correctly, because they are on the LEADING EDGE. In my 38 years working in the construction industry I believe the Multi-Ripper Buckets are the greatest advance I have seen for excavating rock.

Lee Horton has always done whatever it takes to satisfy me as the customer. I am very proud to be associated with such a fine organization."
