

FOR IMMEDIATE RELEASE

B&D Fabricators, an Entegra Attachments Company, acquires Leading Edge Attachments, Inc., to Drive Growth and Innovation

Edgar, WI – 12-10-2025 – B&D Fabricators, an Entegra Attachments Company, announced today that it has acquired Leading Edge Attachments, Inc., a Hubbardston, MA, supplier of highly unique and patented frost and rock ripping buckets and other heavy attachments. This strategic move positions Leading Edge Attachments as part of B&D's growing proposition of standard and customized heavy attachments across a wide array of market applications.

Michael Flannery, CEO of Entegra Attachments, LLC, stated: *"The acquisition of Leading Edge Attachments by B&D Fabricators represents a strategic milestone in expanding Entegra's heavy attachments industry growth platform. Leading Edge Attachments' specialized product line and engineering expertise complement B&D Fabricators' extensive design library, enabling us to serve as a true one-stop shop for the attachments industry."*

Lee Horton, prior owner of Leading Edge Attachments, commented: *"This direction will enable further investment and support in the expansion of LEA's product lines. Partnering with B&D provides the resources and strategic alignment needed to accelerate innovation, without compromising our commitment to quality and customer service."*

Todd Brinkman, President and founder of B&D Fabricators, added: *"I'm excited about the opportunities this partnership brings. Leading Edge Attachments' reputation for durability and performance aligns perfectly with our commitment to quality and customer service. Together, we will continue to innovate and strengthen relationships with our customers for years to come."*

LEA has built its reputation on designing and delivering high-quality construction equipment that enhances the versatility of excavators and backhoes. Its couplers and attachments are developed through close collaboration with contractors, ensuring that the products meet real-world demands. This hands-on development process, combined with decades of engineering and industry experience, enables LEA to produce some of the most durable and reliable patented equipment on the market. The company prioritizes minimizing downtime for operators and continuously seeks customer feedback to improve existing products and develop new solutions that make jobs faster, easier, and more efficient. Leading Edge Attachments will operate under B&D Attachments, LLC, while maintaining its current product lines and names.

Founded in 2007, B&D Fabricators is a leading manufacturer of heavy equipment attachments serving industries such as construction, mining/quarry, industrial agriculture, land clearing, and environmental remediation. Headquartered at 810 Tamarack Avenue, Edgar, Wisconsin, the company operates with a strong reputation for engineering excellence and customer-focused solutions.
